

Theorem. *Let X be a normed linear space. If $\{x_n\}_{n=1}^{\infty}$ is a sequence which converges weakly to x , then $\|x\| \leq \liminf_{n \rightarrow \infty} \|x_n\|$.*

Theorem. *Let $\{f_n\}_{n=1}^{\infty}$ be a sequence in L^+ . Suppose $f_n \rightarrow f$ a.e. Then $\int f \leq \liminf_{n \rightarrow \infty} \int f_n$.*
